50cm ULTRA HI-SPEED BURNISHER

THE ULTRA HI-SPEED ELECTRIC STRAIGHT LINE SUCTION BURNISHER FROM POLIVAC INTERNATIONAL

FEATURING...

- ▶ 1500 RPM PAD SPEED
- ▶ LIGHTWEIGHT CONSTRUCTION
- ▶ STREAMLINED DESIGN
- ▶ HIGHLY MANOEUVRABLE
- ▶ LOW PROFILE & LONG REACH
- ▶ SIMPLE TO MAINTAIN
- ▶ IN-BUILT DUST CONTROL VACUUM SYSTEM

The **Stingray SL2000** Ultra Hi-Speed Electric Straight Line Suction Burnisher from Polivac International is the optimum in achieving the glossy enduring "wet look" shine and lustre.

At 1500 RPM and combined with the in-built dust control vacuum system, the **Stingray** goes about it's work, burnishing and micro-scratch repairing, efficiently and quietly.

Easy and comfortable operation is facilitated by being well balanced, highly manoeuvrable and fitted with a ratchet lever adjustable handle which comprises ergonomic hand grips and positive actioning triggers with safety buttons. Maximum floor adhesion is achieved by the use of the "Rubbermaid" pad holder system. It is designed to follow the contours of the floor surface, whilst maintaining a consistent 50 cm burnishing path.

A full floating skirt entraps the polishing dust allowing the vacuum system to leave the floor free of dust.

The sturdy metal base is powder coated and fitted with a full wrap-around bumper for protection and durability.

Long life and ease of service is built into every Polivac machine and combined with these outstanding features, the **Stingray** is a cost-effective unit for today's floor maintenance programs.
