STRIPPING TIME REDUCED

VERSATILE STRIPPING MACHINE

FEATURING:

- ▶ Tynex abrasive quick release brushes
- ▶ Variable speed
- ▶ Floating skirt
- ▶ Full Underneath splash guard
- ▶ 12 volt push start
- ▶ Comfortable and easy to operate
- ▶ Large diameter non-slip wheels
- ▶ Adjustable handle
- ▶ Front weighted

Designed for performance, the **ST2100** propane stripping machine is simple and easy to use and has proven to reduce stripping time by at least 60% over conventional methods.

Three quick release tynex abrasive brushes, equidimensionally spaced and mounted on independent floating and separately driven heads rotating between 350 and 700 rpm, facilitate the stripping process with ease over a width of 53cm (21").

The full underneath splash guard and floating skirt prevent contamination of pulleys and belts whilst enabling operation of the unit to the utmost edges of the work area without fear of splashing.

A 12 volt push button start fires the 11 horsepower 4 stroke overhead valve Honda engine into action whilst the brushes are on the floor. Brushes are actuated by the easy actioning clutch lever.

Weight over the brushes is easily changed by the addition or removal of 13kg weights to accommodate all floor conditions.

Combining all of this with the heavy duty robust metal construction, adjustable gas bottle holder, bias control, adjustable fold down handle and you have a versatile machine that will stand up to the rigorous demands of today's floor maintenance programs.

▲ *This versatile stripping machine*, with its removable weight system, can be used for other applications including floor cut back and concrete floor scrubbing.

SPECIFICATIONS

MOTOR:	<i>Honda propane powered, 11hp, 4 stroke overhead valve fitted with oil alert system.</i>
DRIVE:	<i>Belt</i>
BRUSH SPEED:	<i>350-700rpm</i>
COVERAGE:	<i>53cm (21")</i>
HANDLE:	<i>Adjustable</i>
GAS BOTTLE:	<i>9kg</i>
BATTERY:	<i>12 volt, 17 amp</i>
DIMENSIONS:	<i>1600mm L x 635mm W x 1030mm H (710mm H when handle folded down)</i>
WEIGHT:	<i>119kg less weights (weights are 13kg each, four standard with machine)</i>
WARRANTY:	<i>12 months conditional</i>

▲ *Fully adjustable handle* folds down to reduce the total height to 710mm.

▲ *Pulleys and belts are protected* from contamination by the full underneath splash guard. Fitting and removal of the three Tynex abrasive brushes is quickly and easily facilitated by use of the quick release system.

▲ *Easy access to belt and drive system* offers ease of maintenance and serviceability, eliminating costly and unnecessary downtime.
