

Nilfisk Walk-behind sweeper

Nilfisk SW 750

Quiet and easy cleaning

It's easy to assume that all walk-behind sweepers are the same. Or that if you've seen one, you've seen them all. But it's not so. The new SW 750 sweeper from Nilfisk-Advance is so superior in so many ways, that it really does stand apart from the crowd.

First of all, this battery powered, truly versatile sweeper can go anywhere and be used for cleaning everything from retail areas to gas station forecourts. With the carpet kit, it can even clean soft floors. What's more, it comes with an onboard charger as standard to save time.

Moreover, it cleans so silently that it can be used even in the most noise sensitive areas. At just 59dba, the SW 750 is suitable for daytime cleaning without risk of causing disturbance. In fact, the entire design is so efficient, and so cleverly thought-out, that productivity is assured even with an inexperienced operator, while operating costs are minimized.

Nilfisk SW 750

The handle is fully adjustable to suit each individual operator. It folds down completely to simplify storage.

Thanks to the polyester filter the SW 750 can be used in both dry and humid areas.

Carpet kit

Quality features and better reliability

- Silent running. At just 59 dbA, the SW 750 can be used in even the most noise sensitive areas
- Onboard battery (46Ah) and battery charger are supplied as standard. Simply plug in the charger and you're ready to clean
- Standard battery provides up to 2 hours run time on hard floors, allowing sweeping of approximately 6,000 sq.mtrs. Optional 77 Ah battery increases running time to 3.5 hours
- Large wheels and traction drive, plus the balanced location of the battery above the rear axle, provide excellent manoeuvrability, even on carpeted floors
- No tools are needed for changing all usable parts. Speeds up servicing and optimises productivity
- Wide sweeping path of 720 mm (main brush 500 mm + right side brush) provides fast cleaning and theoretical productivity of 2,900 sq.mtrs/hour

The plug-in onboard battery charger ensures continuous and hassle-free operation.

The main and side brushes are adjustable to ensure perfect pressure on the floor at all times and in all conditions.

Innovations that maximise performance

Technical specifications

Description	Unit	SW 750
Motor power source		Battery 12V - 200W
Motor brand		Amer
Productivity rate theoretical/ actual	m ² /h	2900/2300
Sweeping width (w. sidebrush)	mm	720
Sound pressure level	dB(A)	59
Max. speed	km/h	4
Hopper volume	litre	60
Max. dumping height	cm	manual
Main filter area	m ²	1
Dimensions (L x W x H)	mm	998x797x621
Weight	kg	68
