# built to sweep

**Brava**

Brava has been built for quick and easy sweeping.  
**It does the job of ten men using traditional brooms but...  
 TOTALLY DUST FREE.**

Brava is a modern industrial machine manufactured to meet professional standards.  
 Your area is efficiently cleaned saving you time and money whilst benefitting your business and well being.  
 The Brava range includes three models of pedestrian sweepers: BRAVA 600 and BRAVA 700 powered by battery or petrol with sweeping widths of 65, 75 and 85 cm respectively.

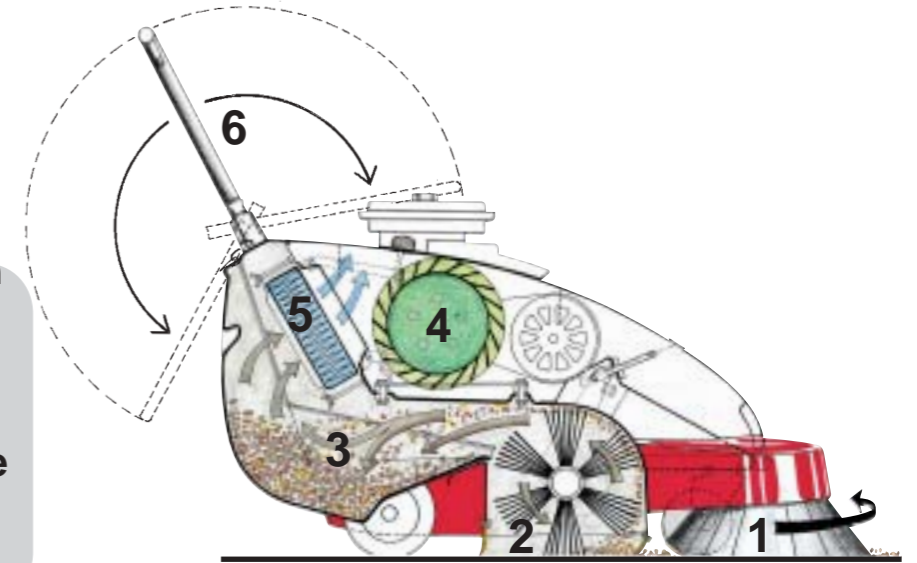

**Brava 600**

**Brava 700**

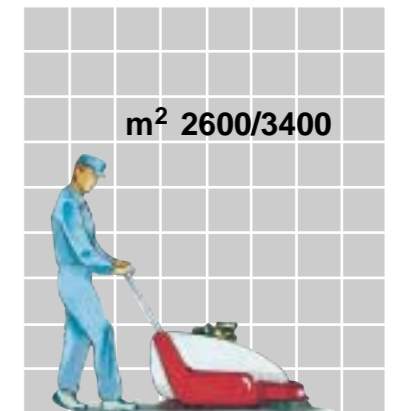

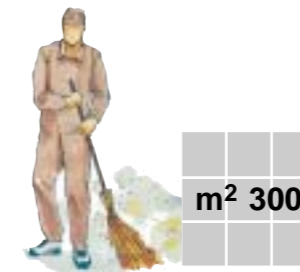

## Working scheme:

- 1- Side brush
- 2- Main central brush
- 3- Refuse container
- 4- Suction fan
- 5- Panel filter
- 6- Adjustable handle

## Cleaning capacity

The **Brava** (2600/3400 m<sup>2</sup>) is so efficient it can clean up to ten times the area one person can achieve with a brush (300 m<sup>2</sup>).  
 The actual performance is normally 75% of the theoretical one, consideration has to be given emptying the hopper and manoeuvring around obstacles.

Brava Ace: designed especially for maintaining synthetic grass.

Brava Street: specially designed for urban cleaning with extremely low noise levels.

Brava 600HT cleaning in a petrol station.

Brava 700ET in a finished goods warehouse.

Brava 700HT: electric start, electric filter shaker.

Brava (all versions): panel dust filter.

Brava 600 and 700: the two batteries 6V-240Ah.

Brava 700T-MA: pull start, mechanical filter shaker.

Brava (all versions): the robust front protection.

Brava 600 and 700: adjustable and foldable handle.
